

Call for papers GOL'20

After the success of the first four editions, the 5th edition of International Conference on Logistics Operations Management GOL'20 will be hold on 13-15 April 2020 at ENSIAS.

The 5th International Conference on Logistics Operations Management aims to bring together researchers and professionals interested in logistics not only from a technology standpoint but also from a social sciences perspective. This multi-disciplinary approach will examine the current state of the art focusing on new techniques and models relevant to the operations management of various logistics flows. The scope of the conference will cover, but not limited to, several topics such as logistics systems modelling, decision support systems, information systems, legal and regulatory environments, framework and control of the global logistics chain, manufacturing organization, transport and storage operations, performance modelling and measurement, risk analysis and planning.

APPLICATION AREAS

- Manufacturing
- Intermodal and multimodal transport
- Logistics
- Sustainable supply chain
- Health systems
- Natural Resources: Agriculture, Fisheries, Mines and Forests
- Renewable energy systems
- Communication network systems
- Real time embedded systems
- Urban Systems and Smart

Organising Committee:

- Youssef Benadada, ENSIAS , Morocco
- Jaouad Boukachour, Havre University, France
- Ahmed EL Hilali Alaoui, FST, Fès, Morocco
- Fatima-Zahra Mhada, ENSIAS, Morocco
- Fatima Ouzayd, ENSIAS, Morocco

Important Dates

- Submission of Papers: **30 June 2020**
- Notice of Acceptance: **31 July 2020**
- Camera-ready Manuscript: **01 September 2020**

Instructions for authors

Researchers are invited to submit their theoretical or applied research related to the themes of the conference. Articles can be written in English or French. Only articles written in English that can be submitted to IEEE library.

Full papers should be between 5 and 10 pages.

The 5th edition of the IEEE International Conference on Logistics Operations

Management- **GOL'20**

ENSIAS, Rabat, Morocco, ~~April 13-15, 2020~~ **October 28 -30, 2020**

CONFERENCE TOPICS

- Supply chain design and control
- Transportation, manufacturing & warehousing operations
- Maritime and Port logistics
- Performance analysis
- Modelling & simulation
- Planning and scheduling
- Information systems integration
- Traceability
- Risk Management
- Regulations, Governance
- Sustainable development
- IT for Supply Chain Management and logistics
- Reverse logistic
- Complex Systems
- Logistics process
- Artificial intelligence and optimization
- Decision support systems
- Hospital Management System
- Internet of Things and Product Service Systems
- Industry 4.0
- Knowledge engineering and skills management
- Project management
- Optimizing the quality of products / processes
- Transportation and distribution systems
- Urban Systems and Smart City
- Product and process lifecycle management
- Sustainable development and life cycle assessment

Registration

- Industrial: 400 €
- Researcher: 380 €
- Student 200€
- Extra paper: 200€
